

NEW WORKHORSE -- The Hummer, a 1½-ton high-mobility multipurpose vehicle, has been chosen by the U.S. Department of Defense to replace the jeep, the military's general purpose vehicle since early in World War II. Its chassis can be configured as a platform for the TOW anti-tank missile as well as a personnel carrier, cargo carrier, weapons carrier (shown here) and three ambulance versions. It is being built by the AM General Corporation in Detroit, Michigan. (83-1034-C)
