

FDR MEMORIAL -- Model of the Franklin Delano Roosevelt Memorial to be built in New York City. The design was completed by architect Louis Kahn shortly before he died in March. To be located at the tip of Roosevelt Island, formerly known as Welfare Island, the memorial will consist of a triangular park converging toward a roofless "room of granite" containing a sculpture of the late President and several of his quotations. Mr. Roosevelt served in the White House from 1933 until his death in 1945. The island is in the East River near the United Nations building. (74-970)
