

Picture Story No. 612

THE QUESTIONERS

In the United States, graduate education -- laying stress on original research by students and teachers -- usually begins after four years of collegiate study. The graduate student is required to attend advanced classes and seminars and to conduct independent research. As shown by these pictures made at the Johns Hopkins University in Baltimore, Maryland, -- a pioneer in graduate education -- few fields of knowledge and few dark corners of human ignorance escape the scholar's probing interest.

15-15 Gilman Hall, located on the main quadrangle of the Johns Hopkins campus, houses many of the libraries which total more than a million volumes. Its style is typical of the architecture on the campus. (59-13000) (URSQUH)
