SILVER SET -- The 50th Anniversary Commemorative Medallions show Lindbergh at the time of his flight, and as an aviation pioneer, explorer of future airline routes with wife Anne Morrow, supporter of rocket power with Dr. Robert Goddard, scientist and inventor of a biomedical research pump with Dr. Alexis Carrel, wartime test pilot, and conservationist with a child of the "Stone Age" Tasaday tribe on his back. Royalties from their sale go to help establish Lindbergh Fellowships for projects in aeronautic research, conservation, exploration and wildlife preservation.

(77-1869)
