

FIFTH TIROS CONTINUES U.S. WEATHER SATELLITE RESEARCH PROGRAM

GULF OF OMAN — This view of the Gulf of Oman was taken from the Tiros V satellite during its 15th orbit around the earth. Mascat and Oman are shown to the left and the coasts of Iran and Pakistan are at the top of the picture. Cloud cover is also visible over the Arabian Sea. Tiros V was launched June 19 from Cape Canaveral, Florida. (68-3776)
