SPACELAB 2 CREW -- The seven crewmembers for Space Shuttle mission 51-F (Spacelab 2) pause for a portrait during training at the Johnson Space Center in Houston, Texas. In front are commander Gordon Fullerton (center) and pilot Roy Bridges (right). Standing, from left, are mission specialists Anthony England, Karl Henize and Story Musgrove, and payload specialists Loren Acton and John-David Bartoe. During the seven-day flight aboard the orbiter Challenger, the crew will study the sun, stars and space environment.
