

LUNAR DEPARTURE -- Pieces of gold-colored foil covering the Apollo-14 lunar landing vehicle flutter around the U.S. Flag as the upper stage with Astronauts Alan Shepard and Edgar Mitchell aboard blasts off the surface of the Moon on February 6. They rejoined their crewmate, Stuart Roosa, in the command ship in lunar orbit for the return to Earth. This picture was made by a 16mm sequence camera mounted inside the ascent module. (71-670)
