LONGTIME RECORD SHATTERED -- Butch Reynolds of the United States waves to the crowd in Zurich, Switzerland, after setting a new world record in the 400 meter run with a time of 43.29 seconds. The old mark of 43.86 seconds was set by Lee Evans of the United States at the 1968 Olympics in Mexico City. It and the long jump of 29 feet 2½ inches by Bob Beamon of the United States at the same Games, were the two oldest records in world track and field competition. Only Carl Lewis of the United States has approached Beamon's distance. Reynolds, from Akron, Ohio, led the qualifiers for the U.S. team in the 400 for the upcoming Olympics in Seoul.
