NASA ASTRONAUT TRAINEE

John W. Young, Lt. Commander, U.S. Navy maintenance officer for Fighter Squadron 53 at the Naval Air Station, Miramar, California, is among the nine new astronaut trainees at the National Aeronautics and Space Administration's Manned Spacecraft Center, Houston, Texas. Graduated from Georgia Institute of Technology in 1952, Commander Young joined the Navy that same year. While at Miramar, he set world time-to-climb records for the 3,000 meter and 25,000 meter events in Project High Jump. (63-970)
