This photograph is a government publication— not subject to copyright.

It may not be used to state or imply the endorsement by NASA or by any NASA employee of a commercial product, process or service, or used in any other manner that might mislead. Accordingly, it is requested that if this photograph is used in advertising, and other commercial promotion, layout and copy be submitted to NASA prior to release.

Most of Africa and portions of Europe and Asia can be seen on this spectacular photograph taken from the Apollo II spacecraft during its translunar toward the moon. Apollo II with Astronauts Neil A. Armstrong, Michael Collins, and Edwin E. Aldrin, Jr., aboard, was already about 98,000 nautical miles from Earth when this picture was made.
