

## NEW MEMORIAL DEDICATED TO FRANKLIN D. ROOSEVELT

WARM SPRINGS, Georgia -- The late President Franklin D. Roosevelt, with Mrs. Roosevelt, are shown visiting with young patients at the Warm Springs Foundation here in 1938. The President, who had benefited from swimming in the warm, buoyant water of the springs, established the foundation as a center for treatment and rehabilitation of other victims of poliomyelitis. First a national, now an international foundation, it accepts patients of any race or creed regardless of ability to pay. (Photo No. 61-9529. Accompanies feature F-61-207)
