There Is Music in the Air

1. In a bird sanctuary and public park at Mountain Lake, Florida, in the southern part of the United States, is located the Singing Tower with its 71-bell carillon. The tower and sanctuary were given to the public by an American publisher, Edward W. Bok and the tower is commonly known as the Bok Singing Tower. The bells of the carillon have 53 tones, the upper tones being duplicated to avoid the air-sound of small bells.

La torre del carillón del Parque nacional de Mountain Lake Sanctuary.
