TOP SELLING AIRCRAFT -- Boeings 737s are assembled at the Boeing Aircraft Company plant in Everett, Washington. Recently announced sales have made this the best-selling airplane in aviation history with a total 1,842 ordered. Another Boeing aircraft, the 727, held the previous record with 1,831 sold. The fuel-efficient 737 carries from 108 to 146 passengers, depending on configuration. It was developed mainly for shorter routes. (87-172-C)
