

THE SECOND NORTHROP YF-17 PROTOTYPE, painted in mottled blue-white sky camouflage coloration, has joined its sistership in the U.S. Air Force test and evaluation program at Edwards Air Force Base. For the flight test demonstration program both aircraft will be armed with two infrared missiles, one 20mm rapid-firing Vulcan M-61 gun and five additional stores stations. The number two YF-17 prototype made its maiden flight August 21.
