HOOVER'S MONUMENT TO PEACE

Herbert C. Hoover, former President of the United States, now 82-years old, has spent many years of his life endeavoring to determine the causes of war and how peace can be achieved. The culmination of this interest is the Hoover Library on War, Revolution and Peace on the campus of Stanford University, Palo Alto, California. Here, historians, educators, writers and students from all parts of the United States and visitors from many foreign countries study diaries, publications, proclamations, treaties and other documents of historic value.
