

Termicas del Besos of Spain signed a loan agreement with the United States at the Export-Import Bank in Washington on September 22. The loan, guaranteed by the Government of Spain, will help finance the purchase in the United States of equipment, materials and services for a 300 megawatt addition to the Besos thermal power plant near Barcelona. Signing for Termicas del Besos is J. M. Badia (left), director general. Walter C. Sauer, vice chairman of the Export-Import Bank, signs for the United States.
