RESEARCH BRINGS AGRICULTURAL PROGRESS TO SOUTH DAKOTA

C435MFA

The South Dakota State College of Agriculture and Mechanic Arts, the state's unit of the great system of "land-grant colleges" in the United States, and its several experiment stations and experimental and testing farms, is the source of much of South Dakota's notable agricultural progress. Center of this institution dedicated to agricultural effort is the college at Brookings, in the eastern section of the state. Part of the campus is shown in the photograph. (Photo No. 58-4008.
