

Picture Story No. 612

THE QUESTIONERS

C43525F3

In the United States, graduate education -- laying stress on original research by students and teachers -- usually begins after four years of collegiate study. The graduate student is required to attend advanced classes and seminars and to conduct independent research. As shown by these pictures made at the Johns Hopkins University in Baltimore, Maryland, -- a pioneer in graduate education -- few fields of knowledge and few dark corners of human ignorance escape the scholar's probing interest.

9-15 In the complexity of today's science, electronic computers are employed to process great masses of data. This one is at the Johns Hopkins University Applied Physics Laboratory, which specializes in finding ways to study outer space. (59-12997)
