FOR RELEASE: Filed: May 13, 1975

PHOTO NO. 75-RC-225  
75-H-370

This photograph is a government publication-- not subject to copyright.

It may not be used to state or imply the endorsement by NASA or by any NASA employee of a commercial product, process or service, or used in any other manner that might mislead. Accordingly, it is requested that if this photograph is used in advertising, and other commercial transaction, layout and copy be submitted to NASA prior to release.

The Viking spacecraft will be carrying these three emblems when it touches down on the surface Mars about July 4, 1976. They are the American flag, the United States Bicentennial symbol (center), and the winning emblem designed by American student Peter Puro of Baltimore, Md., in the National Viking Student Emblem Contest. The Viking lander's camera's are expected to photograph the three logos as panoramic views of the Martian surface are sent back to Earth.
