FOLLOWING TROUBLED SPACECRAFT -- Astronauts and flight controllers follow the return of the troubled Apollo-13 spacecraft from the Moon in Mission Control at Houston, Texas. Standing, from left, are Anthony England, Joe Engle, Eugene Cernan and Ron Evans. Seated, from left, are capsule communicator Vance Brandt, Edgar Mitchell and Alan Shepard. Mitchell is lunar module pilot for the upcoming Apollo-14 flight, and Shepard, the first U.S. astronaut to make a sub-orbital space flight, is the flight commander.
