GEMINI-10 DESCENT -- The Gemini-10 spacecraft with U.S. astronauts John Young and Michael Collins aboard nears its splashdown point in the Atlantic Ocean some 800 kilometers east of Florida on July 21. The landing was only a few kilometers from the prime recovery ship, the USS Guadalcanal. Gemini-10 was launched July 18 from Cape Kennedy, Florida. The astronauts spent nearly 71 hours in space as they orbited the earth 43 times. (66-2444)
