

GEMINI-AGENA LAUNCHES -- Double-exposure view of the launchings of the Gemini-8 spacecraft (foreground) and the Agena target vehicle March 16 from Cape Kennedy in Florida. The Atlas-Agena vehicle lifted off Launch Complex #14 at 1501 GMT and the Titan II rocket started Gemini-8 astronauts Neil Armstrong and David Scott on their way into orbit 100 minutes later from Launch Complex #19. The two complexes are about 1600 meters apart.
